Subject: Update

Cindy,

I've instructed our WV and KY folks to send their samples collected to date to our lab.

It's possible that the WV folks might take additional samples (primarily tap water) since they are still noting odors in tap water at some location, so we still might be interested in having the ERT mobile lab do some 4-MCHM analyses, if possible. If you have a contact name/number for the mobile lab, I'd appreciate your sharing it with me.

Thanks and safe travels,
Bill
